WILSON APPROVED REPORT OF ANTHRAX COMMISSION

Washington, Aug. 30.—President Wilson today approved the majority report of the anthrax commission awarding \$50,000,000, and notified the miners that he expected them to accept the award and carry it into effect in good faith.

Replying to threats from the miners that they would stop work Sept. 1 unless the majority report of the commission, recommending a higher award than provided in the majority were accepted, the president stated definitely that the majority award would not be set aside.

In refusing the request of the miners for acceptance of the majority report, the president called attention to a resolution adopted by the miners in convention agreeing to accept the findings of such a commission as he appointed.

The president further told the miners that if their communication was intended as a threat they could rest assured that the challenge would be accepted and that the people of the country would find some substitute fast to tide them over until the real miners could find expression and they are ready to abide by the obligations they have entered into.

Immediately upon approval of the majority report, Secretary of Labor Wilson at the direction of the president issued a call for a meeting Thursday at 2 o'clock of the joint anthrax scale committees of operators and United Mine Workers of America for the purpose of discussing the terms of the award into a contract to be effective until March 31, 1922.

The wage increases recommended by the majority will amount to an annual increase in pay for the miners of \$85,000,000 and in the payment of \$15,000,000 back pay, accumulated since last April.

The majority report of the commission granted wage increases of 30 and 17 per cent. above the present wages scale. The 20 per cent. wage increase was awarded contract miners and the advance of 17 per cent. was recommended for laborers and consideration miners.

Neal J. Perry, of McArdle, Pa., representing the miners, who minority report had endorsed, recommended a minimum wage of six dollars a day adult day laborers and an increase of 31 per cent. for contract workers.

Poles Undecided on Action for Present

Whether to March Forward and Crush the Reds or Conclude Peace as Promptly as Possible.

Warsaw, Aug. 30.—(By the A. P.)—President Pilsudski declared today that the front designated by the allies on Dec. 8 as Poland's eastern frontier is from a strategic point of view worth nothing to the republic.

"At several points in the region of Brest Litovsk," he said, "we have already crossed the allied line. In the north we are approaching the Dnieper, in the center, the Dniester, and in the south, the Black Sea. We are creating a state of defense, means that we confront with this act that the front in the east answers our aspirations."

The Polish president asserted there are only two solutions of the Russian problem. The first is to march forward and crush the Reds, and the second is to conclude peace as promptly as possible.

"The Poles must make a decision prompt and energetic," he continues. "It is not easy to inflame the Poles, and they are becoming weary of us. We must not delude ourselves even if we win, since we should always remain an object of Russian aggression."

"Our friends desire that the Poles shall remain stationary on the eastern front, maintaining a purely defensive attitude. My opinion is that this is impossible. Now that Poland with its small army, badly equipped, remains on the front of hundreds of miles? Such a line should have trenches and protection of barbed wire, and to carry sufficient wire to the lines would occupy the entire railroad system for months."
